## WEAR A SMILE.

Wear a smile upon your lips,  
If your heart cannot be gay;  
The reflection for some other  
May help clear the mists away.

When others seem down hearted,  
Speak but words of hope and cheer;  
A rose among the thistles  
Seems all the lovelier.

Take a lesson from the brook,  
As it hurries swiftly 'long;  
The stonier its pathway,  
The merrier its song.

Find something to do ever,  
Have not too much time to spare;  
A tool will rust out quicker  
Far, than it will ever wear.

If you will carry with you,  
E'er a smile, kind words, a song;  
As you look o'er your journey,  
It will never seem too long.

—MAUD M. McKINNEY.

**A QUARANTINE FENCE.**

Arizona can claim another novelty  
which is no less than a strong barbed  
wire fence constructed by stockmen on  
the line between Arizona and Sonora  
for a distance of over 100 miles.

Last week B. A. Packard, the cattle  
prince of Cochise, closed the gap of 30  
miles between the San Rafael and the  
fence which extends westward from the  
Sonora line, so that there is an impen-  
etrable barrier between Sonora and Ariz-  
ona from the New Mexico line up to  
and through the San Rafael, except at  
public highways which are provided  
with gates or movable fences.

The precaution which made this fence  
a necessity was the fact that a quaran-  
tine had been declared against cattle in  
the eastern region of Sonora, on ac-  
count of the fever ticks, which is said  
to prevail among herds in that region.

A large number of stock of Arizona  
herds were constantly straying across  
the line into Sonora. Under the quar-  
antine regulations these cattle could  
not be returned to their herds in Ariz-  
ona on account of the quarantine, which  
was proving a great loss to Arizona  
stockmen, hence the only way to meet  
the problem was a fence which would  
prove a complete quarantine against  
Sonora cattle as well as prevent Ariz-  
ona stock from straying across the line.

The completion of this fence will be  
welcome intelligence to stockmen of  
Arizona, as there was danger of the  
infected stock getting mixed up with  
their herds, and the result would have  
been a quarantine declared against  
southern Arizona. But this protection  
which these stockmen along the line  
have built for themselves will be for  
the benefit of the entire territory, and  
the danger of a quarantine being es-  
tablished against Arizona from this  
source no longer exists.—Star.

Gov.-elect Roosevelt is understood  
to be a large and cordial subscriber to  
the doctrine that too much legislation  
is the bane of political parties. In  
other words the people are governed  
too much.

A gar load of heating and cooking  
stoves and ranges just received; the  
best assortment ever brought to Globe.  
J. SUTER.

care. Low rates by the month.

## FACTS ABOUT COPPER.

The most cheerful news that we have  
had for several years past is the fact  
that copper has reached the 13-cent  
point. Necessarily, to a community  
of 50,000 souls like Butte, the fact that  
we produce each year nearly one-half  
the total production of the world of  
this king of metals, the announcement  
that copper has gone to the 13-cent  
point is very good news. Not since  
1891 has the price been at its present  
high level, and never in the history of  
copper mining has the production and  
the consumption reached the enormous  
proportions now showing. It is this  
wonderful increase in demand, result-  
ing from the more widely extended use  
of copper, that has led to a promo-  
tion of an unusual number of Arizona  
and Michigan new copper companies  
upon the eastern market. While con-  
servatism suggests that this copper  
share speculation is perhaps being over-  
done with new companies, yet there is  
on the other hand every reason for be-  
lieving that it is not at all extreme. By  
comparison with other years the cop-  
per shares have certainly made big ad-  
vances.

But this, under the existing con-  
ditions, is hardly a fair measurement.  
The present is an age of progress. De-  
velopment work, mechanical appli-  
ances, and, indeed, all the factors enter-  
ing into the cost of producing copper,  
have been modernized so as to bring it  
down to a minimum. At the same time  
the demand for the metal has increased  
at a surprising rate, and the produc-  
tion of our mines of a few years ago  
would not begin to meet the present  
demand. Even as it is, the supply of  
copper of nearly all the large produc-  
ers is kept sold well ahead for much of  
the time in order to meet consumers'  
demands at home and abroad. It is  
only natural that this demand, which  
keeps on increasing, should lift the  
price of this metal. An advance of a  
small fraction means very much to the  
producers in the matter of profit. And  
of course increased profits means en-  
larged dividends. And enlarged divi-  
dends means in turn an enhanced mar-  
ket value for these copper shares.

This is really all that there is to the  
present movement. It is natural,  
healthy and substantial.

But financial circles have become so  
accustomed to spasmodic and period-  
ical copper share booms that they fail  
to grasp readily the great and perma-  
nent change in the copper situation  
that has been and still is working out  
of the new conditions.

Of course there will be a limit to this  
increased consumption, and if the new  
companies turn out good producers,  
the demand will be more readily cared  
for.

But for the present, and, indeed,  
for a long time to come, it does seem  
to us as though the present conditions  
will continue.

The copper share speculation as a  
whole is, therefore, viewed from this  
standpoint, less of a boom than it is a  
natural and healthy development, and  
it certainly gives promise of having a  
permanent and more lasting effect than  
is now generally appreciated.—West-  
ern Mining World.

Geo. W. Jenkins, editor of the Santa  
Maria Times, Cal., in speaking of the  
various ailments of children said:  
"When my children have a cough there  
is only one patent medicine that I ever  
use, and that is Chamberlain's Cough  
Remedy. It possesses some medical  
properties that relieve the little suffer-  
ers immediately. It is, in my opinion,  
the best cough medicine in the mar-  
ket." If this remedy is freely given  
as soon as the croupy cough appears it  
will prevent the attack. It is also an  
ideal remedy for whooping cough.  
There is no danger in giving it to chil-  
dren, as it contains nothing injurious.  
For sale by H. C. Hitchcock, druggist.

When our new possessions are all ad-  
nexed it will be in order to send a com-  
petent and trustworthy arithmetic man  
thither to gather some reasonably ac-  
curate and uniform statistics concern-  
ing them. At present there are no two  
handbooks, statistical atlases, cyclo-  
paedias or almanacs that agree as to the  
population or area of either the Philip-  
pines or any of the other islands or  
groups of islands that it is proposed to  
take in. The calculations as to area  
differ by thousands of square miles, and  
their populations by tens of thousands  
of people. It will be necessary to  
change all this perplexing jumble of  
figures.

Something for the New Year.  
The world renowned success of Hostetter's  
Stomach Bitters, and their continued popu-  
larity for nearly half a century as a stomachic  
is scarcely more wonderful than Hostet-  
ter's Almanac. This medical treatise is pub-  
lished by the Hostetter Company, Pittsburg,  
Pa., under their own immediate supervision,  
employing sixty hands in that department.  
The issue of same for 1899 will be over eleven  
million, printed in nine languages. Refer to a  
copy of it for valuable and interesting reading  
concerning health, and numerous testimonials  
as to the efficacy of Hostetter's Stomach  
Bitters. The Almanac for 1899 can be obtained  
free of cost, from druggists and general coun-  
try dealers in all parts of the country.

## ROYAL BAKING POWDER

Royal makes the food pure,  
wholesome and delicious.

**ROYAL**

**Yellow Jaundice Cured.**

Suffering humanity should be sup-  
plied with every means possible for its  
relief. It is with pleasure we publish  
the following: "This is to certify that  
I was a terrible sufferer from yellow  
jaundice for over six months, and was  
treated by some of the best physicians  
in our city and all to no avail. Dr.  
Bell, our druggist, recommended Elec-  
tric Bitters, and after taking two bot-  
tles I was entirely cured. I now take  
great pleasure in recommending them  
to any person suffering from this ter-  
rible malady. I am gratefully yours,  
M. A. Hogarty, Lexington, Ky." Sold  
by H. C. Hitchcock, druggist.

Joseph L. Giroux, superintendent of  
the United Verde copper mines is in  
the city with his family. He will go  
to Guaymas, Mexico, to-night where  
his family will spend a month. Mr.  
Giroux, when asked by a reporter if  
there were any new strikes at the Uni-  
ted Verde, said: "We made one strike  
in the Verde and we are still working  
on that. Although we have 800 men  
at work it looks as though it would  
take a lifetime to clear out the ore in  
sight."

"There is nothing new," said Mr.  
Giroux to the reporter. "A number  
of people are working about the Verde  
with the hopes of striking it rich, but  
so far as I can learn they have not  
found anything worthy of note. The  
Verde is working along with the an-  
force of miners, and the mine is turn-  
ing out a great deal of bullion, and  
there is no sign that the ore body is  
playing out. The Verde will be a pro-  
ducer when a great many of Ariz-  
ona mines have been worked out, and I do  
not think that any man living today  
will see the Verde closed down."—  
Phoenix Republic.

According to statements filed in the  
county clerk's office in Houghton coun-  
ty, Michigan, there are 9,266 share-  
holders owning stock in eight of the  
Lake Superior producing copper mines.  
These eight mines are: Calumet &  
Hecla, Quincy, Osceola, Tamarack,  
Wolverine, Centennial, Franklin and At-  
lantic, and the average value of the  
holdings of these 9,266 shareholders is  
between \$9,000 and \$10,000 at current  
market quotations. The aggregate  
market value of these eight mines at  
present prices is about \$85,000,000,  
and up to date the total dividend dis-  
bursements amount to \$73,782,000,  
with the present rate of distribution  
about \$5,500,000 per annum. Last  
year's reports showed 8,120 sharehold-  
ers, or 1,146 less than shown by this  
reports filed this year since July 1.

As agents for Studebaker Mfg. Co.  
of all kinds of wagons and vehicles we  
now solicit special orders to come in  
the first car lot. Prices satisfactory.  
Freights low.
